

## **The Patron Saint of Alzheimer's**

The Alzheimer's Caff

Is extremely unnaff

Helpful, obliging and kind

If you can remember the way there

Pleasantries help you unwind

There's a talk and advice

To make you think twice

That you're not all alone in your woe

Some food on your plate to make you

feel great

And a very friendly hello

There's a Patron Saint for several  
things

Titles, award applause

Doing their best helping others

All for a natural good cause

So the question that I have to ask is

Is it surely not time

That a Patron Saint of Alzheimer's

Is waiting for you in this rhyme
